This balance was further segmented into \$374M in pension-related funds (Employee Withholdings and Pay-Go Charges), \$142M in Central Government non-TSA funds (lottery-related funds and other funds held and administered by central government agencies), and \$64M held TSA Sweep Accounts that collect income and completely pass through to TSA on a daily basis (includes General Collections Posts, Agency Collections Posts, and SUT). As further set forth in the Bank Account Balance Report, processes are currently in place to continue evaluating the accounts, including analyzing the cash inflows and outflows and reviewing legal restrictions relative to funds deposited into the bank accounts.*

## **Introduction**

- *Enclosed is the weekly Treasury Single Account ("TSA") cash flow report, supporting schedules and Liquidity Plan to actual variance analysis.*
- *TSA is the Commonwealth's main operational bank account (concentration account) in which a majority of receipts from Governmental funds are deposited and from which most expenses are disbursed.*
- *Beginning April 2016, TSA receipts are deposited in a commercial bank account rather than the Government Development Bank for Puerto Rico ("GDB").*
- *Receipts in the TSA include tax collections (including revenues assigned to certain public corporations and pledged for the payment of their debt service), charges for services, intergovernmental collections (such as reimbursements from Federal assistance grants), the proceeds of short and long-term debt issuances held in custody by the Secretary of Treasury for the benefit of the Government fiduciary funds, and other receipts. Only a portion of the revenues received by the TSA is included in the annual General Fund budget presented to the Puerto Rico Legislative Assembly for approval. Other revenues are separately assigned by law to certain agencies or public corporations but still flow through the TSA.*
- *Disbursements from the TSA include payroll and related costs, vendor and operational disbursements (including those reimbursed by Federal assistance grants and funded from Special Revenue Funds), welfare expenditures, capital outlays, debt service payments, required budgetary formulas and appropriation payments, pass-through payments of pledged revenues to certain public corporations, tax refunds, payments of current pension benefits and other disbursements.*
- *Federal funds related to disaster relief for hurricanes Irma and Maria are deposited in a separate bank account overseen by the Government Authorized Representative ("GAR"), and transferred to the TSA only after admissible disbursements (per approved Project Worksheets) have been made. These inflows to the TSA will be captured on the Federal Funds Receipts (Schedule C); outflows will be captured on the Vendor Payments (Schedule E).*
- *Data for TSA inflows/outflows is reported from various systems within the Department of Treasury of Puerto Rico ("DTPR"):*
  - Cash Flow Actual Results - Source for the actual results is the TSA Cash Flow.*
  - Schedule A - Collections - Source for collections information is the DTPR collections system.*
  - Schedule B - Agency Collections - Source for the agency collections is DTPR.*
  - Schedule C - Federal Fund Receipts - Source for the federal funds receipts is DTPR.*
  - Schedule D - Net Payroll - Source for net payroll information is the DTPR Rhum Payroll system.*
  - Schedule E - Vendor Payments - The source for vendor payments is the Bank checks paid report and a report from the DTPR PRIFAS system.*
  - Schedule F - Other Legislative Appropriations - Source for the other legislative appropriations is DTPR.*
  - Schedule G - Central Government - Partial Inventory of Known Short Term Obligations - Sources are DTPR.*
  - Schedule H - Budget Allocation of the Reconciliation Adjustment for the Central Government Loan to PREPA - Source is the Office of Management and Budget*
- *Data limitations and commentary:*
  - The government has focused on the seven schedules above for which access to reliable, timely, and detailed data is available to support these items. The government continues to work with DTPR and other parties to access additional reliable data that would help us provide detail in the future for other line items in the Cash Flow.*

## **FY 2018 TSA Forecast Key Assumptions**

- *The FY 2018 Treasury Single Account cash flow forecast Liquidity Plan was prepared at the beginning of the fiscal year based on the approved FY 2018 Budget, was projected monthly through June 2018, and is used as the benchmark against which weekly results and variances are measured. As a result of material economic and operational changes stemming from Hurricanes Irma and Maria, DTPR is in the process of developing a reforecast of TSA cash flows to year-end. Until then, the original TSA forecast will continue to serve as the measure for weekly cash flow variances.*
- *Forecast collections and disbursements through the General Fund and Federal Fund are consistent with the approved FY 2018 Budget, with the exception of payroll outlays which were forecast based on run-rate cash disbursement trends, and budget reserves which are non-cash and do not impact the TSA direct cash flows.*
- *TSA General Fund inflows are "gross" (i.e. include accrued Tax Refunds in 2018) and therefore higher than presented in the approved FY 2018 Budget, which considers General Fund revenues net of current year tax refunds. Repayment of deferred tax refunds (from CY 2016 and prior) total \$292mm; reserve for current year tax refunds (excluding garnishments) total \$456mm.*
- *Payroll outlays are based on FY 2017 run-rate disbursements, less savings measures, representing a \$298mm favorable adjustment to the approved FY 2018 Budget for the full fiscal year. Payroll is presented inclusive of segregated employee contributions (\$349M for the year). Payroll is disbursed through the TSA on a bi-weekly basis, approximately on the 15th and 30th of each month.*
- *Pensions reflect the implementation of the pay-as-you-go model in FY 2018. Retirement system inflows represent deposits from municipalities and corporations net of administrative expenses. Figures also include ERS / TRS / JRS asset sales (\$390M), which occurred in July 2017.*
- *The Liquidity Plan assumes collections and outlays of Federal Funds are equal in FY 2018 (zero net cash impact), excluding potential timing impact.*
- *Clawback funds set aside prior to June 2016 (approx. \$146mm held at BPPR accounts and \$144mm held at GDB) are considered restricted cash and therefore excluded from the projected cash balance.*
- *The Liquidity Plan assumes \$592mm of Reconciliation Adjustment as per the approved FY 2018 Budget and March 13 certified Fiscal Plan, which is projected separately from supplier payments and distributed evenly over 12 months. No further provision has been made for potential contingent liabilities against the government.*
- *The Liquidity Plan assumes that beginning November 2017, COFINA SUT collections flow to the General Fund and are available to the TSA for operational purposes, totaling approx. \$316mm in incremental collections in the forecast. However, these funds flowed to the COFINA bank account (BNY Mellon), which created a permanent variance of -\$316mm against the Liquidity Plan.*

Executive Summary - TSA Cash Flow Actual Results for the Week Ended April, 27 2018

Key Figures as of 04/27/2018				
\$2.73bn	\$41M	(\$11M)	\$927M	\$127M
Bank Cash Position	Weekly Cash Flow	Weekly Variance <sup>(a)</sup>	YTD Net Cash Flow	YTD Net Cash Flow Variance <sup>(a)</sup>

**Weekly Cash Flow Variance (\$11M):**

Weekly variance mainly due to: (1) -\$55M variance in Sales & Use Tax Collections (Temporary); and (2) +\$51M variance in ASES pass-through appropriation outflows (Temporary). All other line items have a total weekly variance of -\$7M.

**YTD Net Cash Flow Variance \$127M:**

Weekly Cash Flow variance (above) decreased the YTD Net Cash Flow variance to +\$127M from +\$139M. The primary drivers of the +\$127M YTD variance are Sales & Use Tax Collections (-\$413M, Mostly Permanent), Federal Fund Receipts (-\$117M, Temporary), General Collections (-\$140M, Mostly Permanent), and Net PREPA Loan Outflows (-\$151M, Temporary), partially offset by Reconciliation Adjustment Outflows (+\$444M, Temporary) and Vendor Disbursements (+\$576M, Partially Temporary). All other line items total YTD variance amounted to -\$72M.

(a) Variances represent actual results vs. FY2018 Liquidity Plan. Additional detail and commentary on weekly and YTD variances is provided on pages 7 and 8 of this report.

Key Takeaways - TSA Cash Flow Actual Results for the Week Ended April 27, 2018

Key Figures as of 04/27/2018				
\$2.73bn	\$41M	(\$11M)	\$927M	\$127M
Bank Cash Position	Weekly Cash Flow	Weekly Variance <sup>(a)</sup>	YTD Net Cash Flow	YTD Net Cash Flow Variance <sup>(a)</sup>

**Notable variances <sup>(a)</sup> for the week ended April 27, 2018:**

-\$55M	Inflow - Sales & Use Tax	(Temporary) Variance due to intra-month timing of the receipts of Sales & Use Taxes, as total April SUT collections have exceeded Liquidity Plan by 11%.
+\$51M	Outflow - ASES Appropriation	(Temporary) Variance is due to the timing of federal funds received for the Medicaid Program and the subsequent pass-through appropriation to ASES. As documented below in the "Key Cash Flow Opportunities" section of this page, the Bipartisan Budget Act of 2018 provided for additional federal Medicaid funding that was not considered in the original Liquidity Plan, and represents partially offsetting variances that are permanent in nature. Total appropriations to ASES for the rest of the year will be funded solely by federal funds, contrary to the Liquidity Plan's assumption that federal funds would cease after March, and that the General Fund and other Commonwealth funds would cover ASES appropriations for the remainder of the year. Consequently, General Fund appropriations from the TSA have ceased from March 9 through fiscal year-end.
-\$7M	All Other Inflows & Outflows	Includes disbursements for the Nutritional Assistance Program (-\$27M), HTA Appropriations (-\$20M), Federal Fund Receipts (+\$25M), PayGo inflows (+\$12M), and all others (+\$3M).

**Notable YTD variances <sup>(a)</sup> as of April 27, 2018:**

-\$413M	Inflow - Sales & Use Tax	(Mostly Permanent) YTD permanent variance is driven by: 1) Liquidity Plan assumed \$316M of COFINA funds would flow to the General Fund but instead, the funds were deposited in the COFINA account; 2) lower than anticipated collections due to lost revenues from Hurricane Maria's impact on economic activity in addition to a temporary sales tax exemption on prepared foods and items sold by small and medium merchants (exemptions expired on 1/7 and 12/31, respectively).
-\$117M	Inflow - Federal Fund Receipts	(Temporary) YTD variances in federal fund receipts are a result of: (1) Approximately -\$506M lower-than-projected federal reimbursements for vendor payments; (2) disaster-related federal reimbursements for vendor payments not considered in the Liquidity Plan (+\$48M offsetting variance); (3) timing of disbursements for the Nutritional Assistance Program (+\$101M offsetting variance); (4) ASES pass-through Medicaid appropriations (+\$216M offsetting variance); (5) lower federally-funded payroll disbursements as a percent of total payroll versus the Liquidity Plan (-\$49M variance); and an additional +\$73M of timing variance. Note the Bipartisan Budget Act of 2018 provided for additional Medicaid funding that was not considered in the original Liquidity Plan. As such, federal funds received after 3/31 for the Medicaid Program, and for the remainder of the year, are incremental to the amount projected to be received in the Liquidity Plan and will result in permanent positive variances.
-\$140M	Inflow - General Collections	(Mostly Permanent) Principally due to the negative impacts caused by Hurricane Maria. The largest YTD collections variances are -\$133M in Act 154 collections, -\$119M in Nonresident Withholdings, -\$101M in Individual Income tax collections, partially offset by +\$141M in HTA Pass Through collections (Petroleum & Gas Tax collections constitutes the majority of the favorable YTD variance) and others.
-\$300M	Outflow - Loans (PREPA)	(Permanent) \$300M in funds relating to a loan from the Central Government were transferred to PREPA from the TSA on February 23, 2018. Subsequently, due to excess revenues collected by PREPA that were applied to the repayment of outstanding Revolving Credit Loans, separate payments totaling \$149M YTD were made to the TSA from PREPA (see Net Inflow PREPA below). YTD variance is considered permanent variance to the FY2018 Liquidity Plan, as additional funds repaid to the TSA may subsequently be re-drawn by PREPA if necessary.
+\$149M	Net Inflow - PREPA Loan	(Temporary) YTD variance due to excess revenues collected by PREPA that were applied to the repayment of outstanding Revolving Credit Loans, in accordance with Section 2.6(b)(ii) of the Superpriority Post-petition Revolving Credit Loan Agreement. Though additional repayments may occur, additional draw downs may also occur before fiscal year-end.
+\$444M	Outflow - Reconciliation Adj.	(Temporary) \$151M of the YTD Variance is offset by the Net Loan outstanding to PREPA (\$300M loan to PREPA less \$149M in loan repayments due to PREPA's excess revenue collections). The \$300M original loan repurposed portions of the Reconciliation Adjustment that is budgeted at the agency level. Additionally, \$80M in funding for the Department of Transportation repurposed portions of the Reconciliation Adjustment by agency (see Schedule H of this report for additional detail) to provide funding for an intensive capital improvement program, though this is not expected to result in any FY2018 cash flows. Remaining YTD variance has been deferred to later this fiscal year.
+\$576M	Outflow - Vendor Disbursements	(Partially Temporary) The largest portion (\$458M as of 3/31) of YTD variance is related to federally-reimbursable disbursements, approximately 65% of which the Liquidity Plan projected would relate to budget period 2017. Reforecast to year-end for vendor disbursements is being developed to determine how much of remaining YTD variance is permanent vs. temporary.
-\$72M	All Other Inflows & Outflows	Largest variances included are Retirement System Inflows (-\$86M), Agency Collections (-\$72M), outflows for the Nutritional Assistance Program (-\$101M), Pension Related Costs (+\$122M), Tax Refunds (+\$40M), and others (+\$25M).

**Key Cash Flow Risks to Liquidity Plan through June 30, 2018:**

General Collections - Corporate & Individual Income Tax	Corporate and individual income tax collections for the month of April have previously been highlighted as risks to Liquidity Plan. However, based on strong preliminary April collections, these risks may not materialize. There is potential that the positive impact of FEMA spend and recovery efforts could outweigh any negative impacts associated with reduced economic activity, out-migration and deductions related to damages. Further analysis will be performed as April collections and revenue figures are finalized to understand the collection drivers and the forecast for the remainder of the year.
General Collections - Nonresident Withholdings & Act 154	Because of continued weakness in Nonresident Withholdings and Act 154 Collections, and that these revenue streams are concentrated amongst several large tax payers, there is risk that YTD variance grows larger or does not reverse throughout the remainder of FY2018.
Nonbudgeted Spend	Disaster relief related spend (which may be reimbursed) may impact working capital due to the timing of the spend / reimbursement cycle and the lag may create temporary cash variances in the TSA. From a budgetary perspective, disaster related spend and other nonbudgeted spend may be reapportioned from noncash budgetary reserves.
PRASA	PRASA may potentially require \$80M in funds to be transferred from the TSA later in 4Q to fund their ongoing liquidity needs.
Title III Spend & Municipal Recovery Fund	TSA funds may be required to cover additional non-budgeted Title III spend throughout 4Q (which may approximate -\$140M by fiscal year end) and to set up The Municipal Recovery Fund (potentially -\$100M). From a budgetary perspective, funds may be reapportioned from noncash budgetary reserves to provide for this spend.

**Key Cash Flow Opportunities to Liquidity Plan through June 30, 2018:**

Bipartisan Budget Act of 2018 (Disaster Relief and Medicaid Program Funding)	The Bipartisan Budget Act of 2018 (The Act) passed by Congress on 2/9 includes provisions for additional disaster relief funding for Puerto Rico that will translate into positive cash flows against the Liquidity Plan. Additionally, The Act provides for federal funds to support Puerto Rico's public health care costs for the next two years. In the Liquidity Plan, federal fund inflows for the Medicaid program (ASES) were forecast to run out in March 2018, with the remaining \$448M required for Premiums & Claims costs at ASES to be paid out of the TSA (budgeted as Special Revenue Funds). The additional Medicaid funding package as recently passed by the US Government will positively impact the TSA ending cash balance by the previous "gap" in funding of \$448M.
Petroleum & Gas Taxes	Strong Petroleum & Gas tax collections continued throughout Q3 and may continue throughout Q4, providing additional positive variance in collections. YTD collections variance for this revenue stream is +\$141M, largely driven by unplanned increases in demand for oil to run power generators. YTD variance has partially offset other revenues that were negatively affected due to the Hurricanes.

However, the overall April trend was positive, and resulted in -\$223M more collections than originally projected. This week's collections variance was mainly driven by +\$28M higher in Corporate Income Taxes, -\$12M lower in Act 154 Collections, and -\$18M in Petroleum and Gasoline Taxes, partially offset by various other revenue streams.

**Footnotes:**

(a) Following a Federal Court Ruling on February 19, 2018 that approved a loan request in the amount of \$300M to PREPA from the TSA (funds transferred to PREPA on 2/23), \$300M was repurposed from the Reconciliation Adjustment budgeted at the agency level, and use of approved budgeted amounts for the Reconciliation Adjustment from among 14 agencies provided the funding for this loan to PREPA. Refer to the above schedule for the detailed budget allocation by agency. Subsequently, due to excess revenues collected by PREPA that were applied to the repayment of outstanding Revolving Credit Loans, separate payments totaling \$149M YTD were made to the TSA from PREPA (see Net Inflow PREPA on page 7 of this report). However, the total \$300M reappropriated amount is considered permanent variance to the FY2018 Liquidity Plan, as additional funds repaid to the TSA may subsequently be re-drawn by PREPA if necessary.

(b) The Transportation and Public Works Department (DTOP) requested and was granted authorization to transfer \$80M from the Reconciliation Adjustment (General Fund accounts 111, 141), to its capital improvement program (concept 081), to execute an intensive initiative commencing May 26th, 2018. Though the project will commence in FY2018, there are not expected to be any actual cash outlays until the next fiscal year.

(c) The Office of Management and Budget (OMB) requested and was granted authorization to reappropriate \$11M from the Reconciliation Adjustment for the purpose of acquiring Microsoft Grant Management Solutions (GMS). The implementation of GMS will permit the OMB, and up to five other government agencies, to monitor, access, and manage allocation programs of federal funds.
